

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. Total.....	\$3,260,827 55

The receipts over expenditures for the two years ending June 30, 1882, are

\$199,626, to which add the balance in the treasury July 1, 1880, (\$444,697.76,) making actual balance now in the treasury of \$644,323.76.

The financial condition of the State can be readily seen by reference to the following tables. The revenue has been well collected, and all liabilities promptly paid, leaving a balance in the treasury to the credit of each fund at the close of the fiscal year.

In January next I shall yield up the great responsibility confided to my charge, and I take this occasion to gratefully acknowledge my obligations for the confidence and support uniformly extended to me by the people and press of the State, and by those having direct dealings with this department. On the 28th day of December, 1875, I was called for the second time to take charge of this important office. I then resolved to give the State the very best service I was capable of. How well I have redeemed this pledge, is for the public to judge. In all my labors I have been ably seconded by my assistants, each of whom has performed his duties faithfully and honestly, and they are entitled to and will always receive commendation from me.

To those citizens of the State who, irrespective of party ties, have so kindly in my behalf obligated themselves that no loss should accrue to the public by or through my acts, I desire to acknowledge my great obligations, and to assure them that they have my sincere gratitude.

A true and correct statement of the receipts and disbursements of the various funds coming into the treasury, together with statements of all securities of which the Treasurer is custodian, will be found by reference to the various exhibits hereinafter made. Very respectfully,

JNO. FRANCIS,
State Treasurer.

STATE FINANCES.

PART I.

The Tables on the following pages give a true and correct exhibit of the transactions of this office, from July 1st, 1880, to June 30th, 1881, inclusive.
